Were talking about what the fuck was the hold up, one of the fans checked Hatebreed's Twitter. And they said the VIP was canceled because Hatebreeds tour bus broke down. The roadies rented a van, From what I've heard Hatebreed barely made their set, I can't believe the Hatebreed meet & greet got canceled. Well at least I didn't have to keep baking outside. And I had pit tickets, As I was waiting for the show to ~~start~~ begin I start bullshitting w/ this chick. Dude she was middle aged & wearing glasses. Holy cow she still rocking out that is so awesome.

We were talking about other show's we've been to. What are we going to do when the concert's over, And how it feels so good to finally even go to a show w/ out having to social distance & wear these fucking cuck muzzle's, As a joke I said "I'll see you in the circle pit." I had just got my haircut like 2 day's ago. This chick rubbed my head. I was wearing this Dragon Ball Z shirt. These 2 dudes were digging my DBZ shirt.

Hatebreed start's Playing & the crowd goes wild. Jamey said what I said earlier. After 2 year's of Lockdown's we're finally on tour again. A circle pit form's. I wasn't feeling it. Not enough people. I was suprised to see homegirl w/ glasses letting loose. Every time she would fall their was like 5 dude's helping her up. She was holding her own. When I finally start feeling it I get in there. Homegirl was taking a break, Dude she had a black eye. I was just joking when I said "See you in the pit." As a joke I kept pretending to run into her, she would push me every time. She was so gentle It was more of a nudge. After doing it like 11 times, I was about to do it again. Instead homegirl just grabbed me & squeezed me so tight. that was so awesome. I felt like a champion. As I was pulling away I held her hand & then slowly let go. It was kinda like the ending scene in Stir of Echoes.

I didn't see homegirl again. their was a break in the music. And everybody was forming a circle & head banging. I was like the 3th dude to join in. The dude I was next to said "Way to get down Goku. We shook hands. When the concert was over I was drenched. I got the driver's seat wet covered in perspiration. In the middle of the night I got muscle cramps. Fuck that Fucking hurt

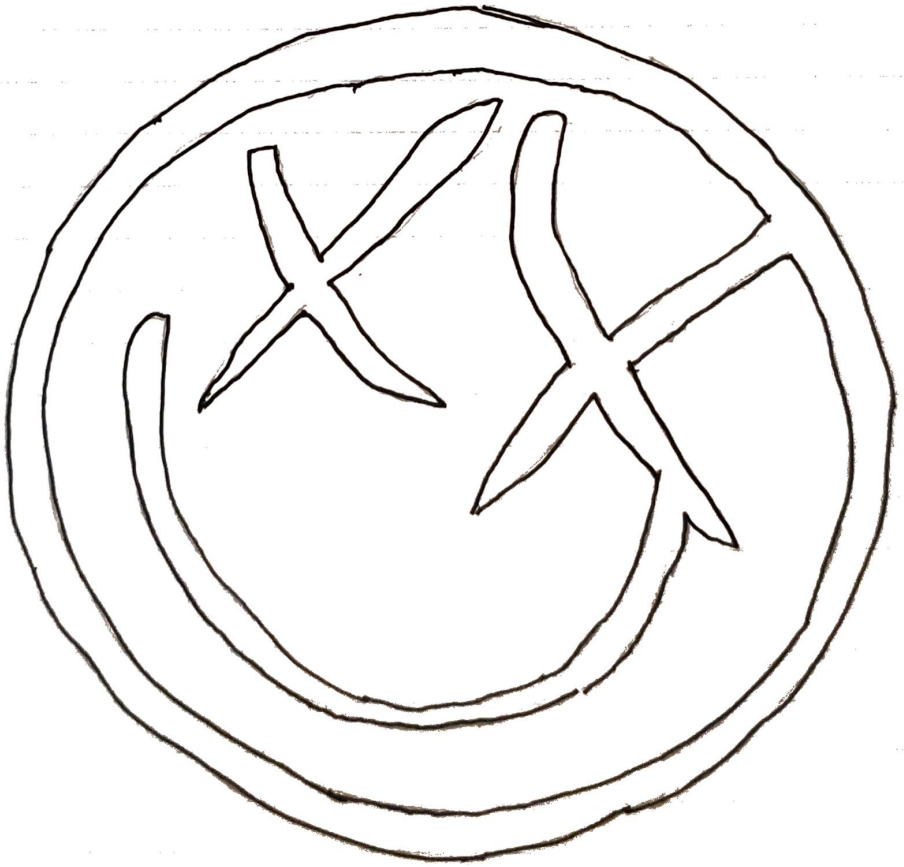
DREAMING OUT LOUD



I Went to the fair. Heres the thing I wasn't planning on going but I already told my buds I was going & I didn't want to look stupid the next time they saw me & say "hey man did you go to the fair?" so I went. I thought I was going to have a miserable time but I had the time of my life. So the 1st thing I do when I get there is buy a turkey leg because I've never had a turkey leg. It was 18 coupons & a coupon is a dollar, when I was in grade school a coupon was 50 cent's &. But that's neither here or there. This lady said the funniest shit. Hell nah I ain't paying 18 dollars for a turkey leg, I can buy a whole turkey wl that. As I was about to take the 1st bite I was thinking out loud. And I said it was all worth it for you baby. This kid sitting next to me heard me & said that shit does look good. It took me like 45 minute's to eat that shit.

After that I just ~~kroner~~ wondered around trying to find the 2 most intimidating rides they had. The slingshot & the skyscraper. But I was too scared so I said maybe later. And besides I wanted to ride it later when the Sun was setting. So I check out the games. The game's were alright but I wasn't really digging the prizes. When I was in Grade School there was more ~~me~~ variety. Now it's all stuffed animals. Back then I won a balloon Popping game. I was throwing them dart's & won a picture of this half naked chick. I was like 12. Can you believe the chick running the stand let me have it. As I'm walking around I pass the haunted house. The 1st time I went to the fair when I was like 4 screamed my head off when I had to pass the haunted house. So I rode it for 7 dollars.

After riding that thing I was ready to ride those 2 scary ass rides. It was 35 dollars each but they made me a deal. ~~Both~~ Ride both for 60. I was like sweet I'll save me some money. After I bought 60 dollars worth of ticket's I was like theres no going back now so I get in line & I wait for like 30 minutes. The guy's running the ride don't like seating 1 person at a time because it waste time. So they were killing 2 bird's wl one stone Wheather everybody liked it or not. There was some shit eating bitches in line & I remember thinking man I feel bad for whoever has to ride wl those loser's. I was 15 in line & they needed someone riding solo. So they literally called my number because When you pay they give you a number.

I felt like a VIP skipping in ~~front~~ front of everybody. The dude was like "let this young man thru. I felt awesome until I saw who I was going to be riding w/. some curry eating beeyotch. I was like "You have got to be kidding me. Here's the thing their was 2 camel ropers in line behind this thing. Why the fuck didn't this curry riding bitch ride ~~on~~ w/ them. Fuck that was a a double edge sword. That was my last time on the slingshot I didn't let that street shitting bitch ruin it for me. I can't believe you have to pay for the fucking video. I thought that came w/ the ride. It's an extra $ 25 dollars. I wasn't going to do it at first but then I said fuck it why not. so then I got on the skyscraper. It was an hour & and a half to ride that shit. I know I counted.

Just like the slingshot they really don't like people riding by themselves. I saw only 1 guy ride by himself after that they were like this is ~~taking~~ taking too long so from then on it was 2 at a time. so I rode w/ this dude. I was freaking out because their was this girl that was screaming her fucking head off. It was making me nervous. so I get on the ride w/ old boy. Half way through the ride we were sitting at the top. I was like "that wasn't that bad". On the way down I was freaking out again because my leg or foot hit a metal beam. I was like what the hell was that? Me & old boy are watching the video ~~together~~ laughing our asses off. I kinda. I kinda wished I had talk to him from the start because he was a pretty cool guy. We bump fist & say deuces.

Guess what? The chick that gave me the deal forgot to mention that you can also get free video when you buy both at the same time. so I had an extra 25 tickets. I was like fuck it & got an extra 10 ~~more~~ tickets so I can ride the slingshot again. the line to ride again was even longer than when I first got on it. As I get in line. I remember this guy saying we found the only adult rides & look how long the fucking line is. After about 10 minutes he threw in the towel. this is where it gets interesting.

Theres this loser in front of me. this fucking guy gets out of line for like 10 minutes. By then ~~the~~ the line is moving. so when this fucking loser gets back in ~~the~~ line he tells me "Youre in my spot". I tell him the line is moving & I didn't want to get left behind. He goes on about how Im taking his spot. I ~~he~~ was like maybe If You hadn't stepped out this wouldn't have happened. This loser then says ~~to~~ back

off"! I say "I'm already back off". This loser then says that's what I thought. I then get in his face & say "I'm not backed off now what?" I had my coupon's in my hand so I put them in my pocket. And I ~~had~~ made fist w/ my hands. This fucking losers eyes glaze over & he looks down. I can tell that their's no fight in this loser.

It was like that scene in Better call Saul when Gus chokes the shit out of Ponytail. Even my retarded ass knew that was a bad fucking idea. Nacho got away w/ it because Salamanca wasn't in a coma. Now this fucking guy who's at the bottom of the ladder who doesn't mean shit to Lalo or even Cladio thought Fring was going to let that slide. Should have just taken the 5. We had them pissing their pants my ass. This Loser was Probably shitting his pant's as he was slowly suffocating. All that over an extra hilo.

Now this ~~Loser~~ Loser was w/ like 3 other guy's. And they're staring at me like What the hell happened. But I didn't care. If I get jumped then I get jumped but I'm going down swinging. So one of his boy's comes up to me saying "is there a problem?" I say "I don't know is their?" He says "I don't know you tell me?" I say "What IF their is?" He says "either settle it or squash it. I didn't want to get kicked out over some retarded shit & since he was being nice & talking to me all I cool I say "~~alright~~ alright lets squash it, 10 minute's later the loser I was going to fight gets out of line & wonders off, Like 30 minute's later the dude who say's to squash it has to get out of line & says his partner is going to hold his spot. I was like ok, 10 minute's later they both have to leave. I tell him that that petty shit is beneath me & no worries & we bump fist, so this fucking loser was going to fight me over a fucking ride that he wasn't even going to get on. Dumb shit.

South Park Ginger Kids

IF ~~there's~~ their's one thing I've learned is that the only way to fight hate is w/ more hate! And in all the confrontation's I've had. The loudest guy in the room isn't the toughest. I can throw them hand's & I can throw that iron. I fear no man but God.

As I'm paying for the ride I tell the dude can I get a video of this one to. He says you got an extra 25 tickets, I say never mind. When I ~~got~~ got my ticket the dude says I have to ride w/ this asian guy. I didn't think we were to going to ~~go~~

get along at 1rst for obivious reason's, I did fuck up by not talking to the dude I rode the sky scrapper W/ so I was like since we were going to be in line for like an hour Plus change I might as well make small talk.

I talked him into taking off his mask. I then prove my point when like 30 minute's later this Loser who got slingshotted got the mask blown off. Everybody was laughing. It was like a snowflake gently flowing down. I also talked him into buying a video. As a joke I told him it's only 25 dollars but the memory is forever, It's your 1st time you don't want to forget this. You've already blown $800 what's another 25. Srsly that's what he told me. Imagine my suprise when he does it. This dude works as a message therapist. He's done work on the Dallas Cowboy's & the cheerleader's. I couldn't believe when he told me but he he makes more than the fucking cheerleaders. Somebody's Wig blew off, He guessed they were black. Shoe's blown off. I told him I work in a metal plant. I said at least the line is moving. The ride is only like 1 minute. But the minute feels like forever. It's the greastest feeling in the world. It's like selling a million grills at the same time. King of the Hill And I'm Free Falling

We both went to Bryan Adams. I graduated in 2008, He graduated in 2013.

Would I have done the same thing IF it was a mutant shit eater? There's not any chance in hell I ever see myself bonding W/ a shit eating mutant. I said I would never waste kindness on these loser's, W/ their stealth jihad & I hate infidels bottchass. These camel rapers ain't fooling me, And even IF they are genuine islam has such a bad toxic reputation World Wide only a loser would want to be a part of that shit. As much shit as I talk about Caucasian's I'd rather deal W/ them over these Sand losers.

Incidentally I got the Whole eating insult from Blood in Blood out Where it was used on the Hispanics, Taco eating Motherfucker? Go Play W/ yourself you fried chicken eating loser. And Shit eater is taken from The camp of Saint's.

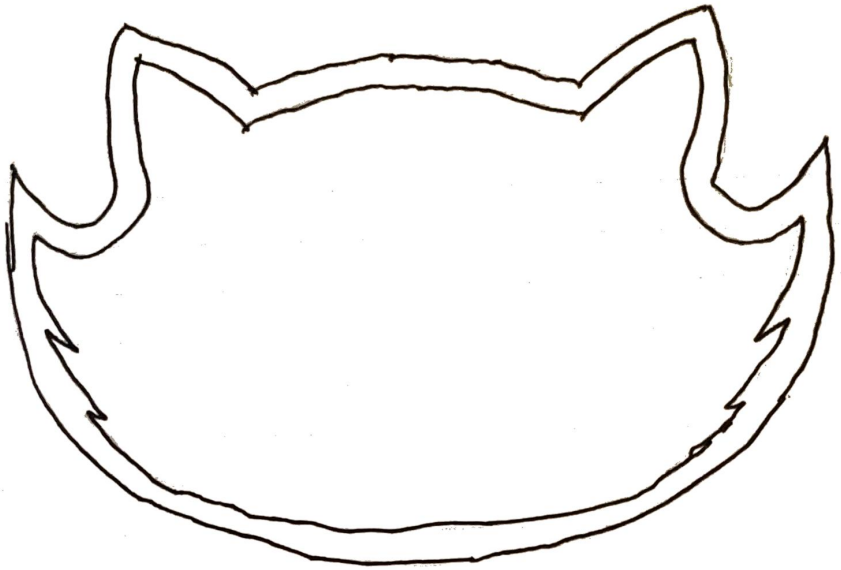
As I get on the ride. The dude start's counting down 3, 2, & Wham We launch, I was like "OH SHIT!
What he had done was sneaky rotten & low, And cool,

The Standout

After the ride guess who I saw, My homegirl who gave me the deal in the last Place. I thought I was never going to see her again because I did not see her once the hour & a half I was in line. I can't believe she recognized me, It doesn't hurt to try so I ~~for~~ told homegirl can I get a video of this ride to. She let me have it, You know I forgot to take the usp out of my pocket. I thought I lost it in the ride but lucky for me my pocket's were deep & tighter than a pair of my cousin's jeans, which look great on her by the way.

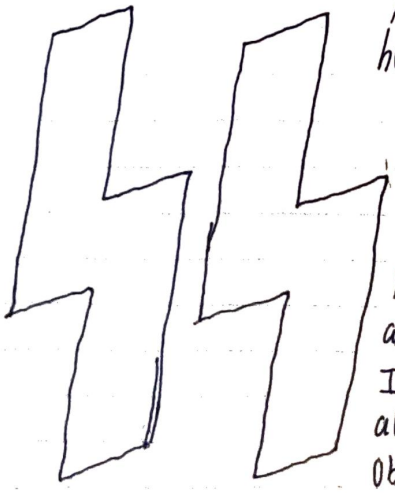
Emo Song

I had to use the bathroom after the ride, There were 2 girl's in the men's room, When I got out of a stall & saw them I was like What the fuck am I in the Wrong restroom. Thank God for urinals, The line for the girl's bathroom was crazy compared to the boy's. It was ~~lu~~ o'clock ~~ear~~ & the fair closes at 11. I was lost for like 45 minutes, I took the rail to the fair to avoid traffic & paying for parking, the only thing that sucked was that the rail was jammed butt to gut. ~~Bleat~~ DART said the dumbest shit, Stand 6 feet apart ~~ea~~ & Wear a mask, ~~Are~~ Are these fucking losers crazy, Fucking Human cattle cars they were packed like sardines. I had a good olè time, sisly I had a blast, I met some cool people & when I thought I was going to have a shitty time I was in my happy Place.



About my homegirl who was running the slingshot. Her name was Jossie. Like Josie And the Pussycats except her name was spelled w/ ~~[illegible]~~ 2's, That's so cool, SS

I didn't want to deal w/ Jossie because I didn't think we were going to get along at 1st because I'm a sexist pig who hates woman, I pay Jossie & she puts a wrist band in my arm. After the ride was over I remember telling the dude is too late to buy tickets for the video. Jossie says no go ahead & come back. I remember thinking I'm not talking to you homegirl. I get back & she gives me a ~~usp~~ usp she then tells me I can get a free video on the skyscraper after I paid ~~$~~ 50 dollars for both. Jossie Put another wristband in my other arm & thats when I started warming up to Jossie.



As she was telling me this their was kindness in her voice & she looked so fucking pretty.

When I came back again. Jossie tells me why am I riding it again? I told Jossie I thought you had to buy the video for both ~~rides~~ rides separately. I didn't know that until I had already ~~bar~~ bought them, so for an extra 10 dollars, I'm riding it again. After the ride I tell Jossie is there anyway I can get another video. I already got the usb. Jossie didn't say ~~is~~ yes but it was Obvious the answer was Yes. I tell Jossie What's your name? She was wearing a name tag & I say Jjjoooossie. I then start singing the Josie & the Pussycats theme.

Jossie and the Pussycats
Long tails and ears for hats
Guitars and sharps and flats
Neat, sweet, a groovy song
You're invited, come along

I tell Jossie "You are sexy as hell thanks", Jossie wore the biggest smile. Her boy is looking at us like what the fuck. I wished I would have caught that on video instead. Later that day I touched myself while thinking about Jossie. This is meant to be said the way Mary Jane tells Peter in the 1rst Spider Man Movie. the one w/ Toby McGuire. I love you so much Jossie

I can't believe I got Jossie to smile. Before she wasn't frowning but she wasn't smiling. Her expression was neutral. That shit worked.

This is another one of those things aren't always what they seem moments. I thought the dude was going to let me get a video because of the whole bros before hoes thing but Jossie gave me the video instead. It was supposed to be the other way around.

This one time my boss Dennis was wearing a shirt that said Duffys inn. He is painted all over. As a joke I said "hey Dennis can you tattoo me?" He said "What you need homie?" I started laughing until I saw that he was serious. Dennis is actually a licensed tattoo artist. As another joke I said "I want a big swastika on my chest." Dennis said "Sure man". Once again I thought he was joking until I saw he was serious. It was like that scene in "My Cousin Vinny"! You were serious about that. My last tattoo artist said she wouldn't do it. She was a white girl. I went to another tattoo parlor at the Garibaldi Bazaar. This ese didn't even know what it was so I showed him a picture. I can't believe he said he'd do it.

From then on when ever I would see Dennis I would joke about getting ridiculous Outlandish tattoo's. My name across my forehead. A butterfly in my lower back. When I finally was serious & I told Dennis that I wanted to get inked he thought I was playing. No this time I'm serious. The next day Dennis sends me a text of someone he had tattooed. He then tells me to send him picture's of what I want to get done. I send him 4 pictures & schedule an appointment.

The next day I go to get painted. It was almost an hour drive. I have never been to that part of Texas. When I finally get there, dude it was his house. I checked the street view on maps before I left & this was definitely the place. As I was pulling in I called Dennis & just as the phone was ringing. He comes outside. Dennis had turned one of the bedrooms into his studio. I haven't got poked in like 4 years.

Damn that shit hurt. Dude it took like 3 hours to do 4. Not only that but me & Dennis were drinking the whole time.

I talked to Crystal again. I can't believe she actually called me. She said "did I get that raise?" Hell yeah. I don't know what life insurance is or what that shit's for. crystal explained the whole enchilada. NOW life insurance is to pay for a funeral. Crystal said it's only 20 dollars a month. something I could pay W/ my raise. I would have to electronically sign.

Crystal said "Do you want seperate bill's or pay for both of them at the same time." I'll take option number #2. I kept saying random shit & questions I already knew the answers to just to hear crystal talk. I was really digging her voice. Can I get cremated instead of having a funeral? Under what circumstances would the policy be void? Eventually I ran out of shit to say. Before I see said see ya & hung up.

I told crystal "She has kindness in her voice". I love the sound of her voice. Crystal said "that's why I'm here". I just meloed.

crystal's name is spelled cristal.

Messerschmitt

This one time when I was working at Tom Thumb this fucking mutant piece of shit & her deformed turd eating baby were trying to beg outside the entrance. It was like the ending of Wrong Turn 2. I was like great. About 10 people pass this Loser & none of them gave her shit. Which impressed the hell out of me, so then the boss comes out & tells this worthless mutant you can't do that here. This Loser was there like 10 minutes. The reason this piece of shit set up shop here instead of some fucking shit eating strip mall was because this neighborhood is affluent as hell, srsly man. The people here are so loaded they tip the courtesy clerks. That shit doesn't happen at Fiesta, Albertsons, or Kroger. At least the one's I've been to.

So this shit eating bitch & her mutant spawn are going to have to leech off some other loser's who are stupid enough to give these turd eaters their money.

Like a month or 2 later after I did my shopping I was in the parking lot. And what do you know this fucking mutant was begging in the parking lot. Either the boss told him to scram & this piece of shit moved to the parking lot or this turd eater learned from the mistake of the mutant bitch. This fucking loser didn't have 1 not 2 but 3 military aged mutants w/ him. Like give me a break. Maybe if these Loser's were younger you might be able to dupe a couple of poor samaritans but these son of a bitches were a bunch of lazy able bodied free loaders. Who do these Losers think they're kidding. This is the land of opportunity & you're telling me you can't get a fucking job.

I've been back at Tom Thumb & I think those shit eaters finally got the message, cause I haven't seen these loser's again.

Fucking Loser's can't even count or read. Stupid fucking camel humpers can't even do Jumping Jacks.

All You Mutants can go fuck Yourself's
Deus Vult

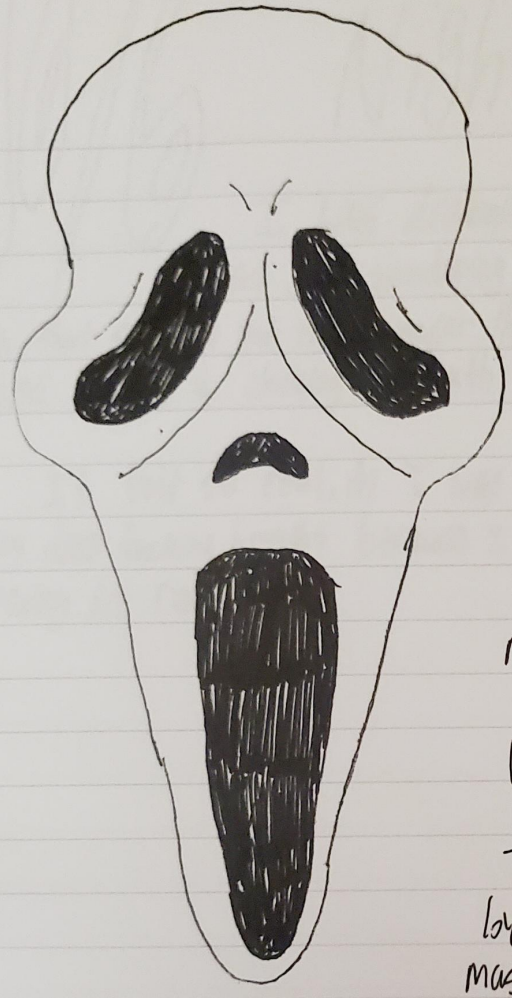
This one time I was sanitizing cart's by the entrance. I was also ~~ba~~ saying hey how's it going & see ya to the customer's. This fucking mutant walks in. As I look up this Loser waves at me. I quickly look away. This hadoi piece of shit then say's hello & waves at me again. I look up thinking it was somebody else & then back down, some time later this customer is leaving & I say "have a nice day"! The customer say's "bye", I didn't know it but that hadji Loser was right there watching & it was upset as hell that I said hey how's it going to the customer before him & see ya to the customer ~~a~~ just now.

If You loser's want a better image quit scamming motherfucker's over the Phone, breeding (as I was writing this My Divine Hammer by the Breeders started playing) like Cockroaches, & learn how to use a fucking toilet. And quit ~~blow~~ blowing shit up & quit getting butthurt over the most minute shit. And to think I was going to offer You loser's some of my bacon.

I'm ~~going~~ going to bash You Loser's head in W/ My Divine Hammer.
I'm just looking for the divine hammer
One Divine hammer
One Divine hammer

Another time my boss sends me to break just as I have to bag for this rag headed mutant, I was like thanx GOD.

This one time one of the 2 entrances was close so this turd eater goes through the wrong entrance ~~but~~ then tells me are You guys open. We make eye contact & then I quickly look away W/ out saying shit.



Scream 2

Why are you losers even here. You'll never be the leading man. No matter how hard you try, you'll never be the hero and you'll never, ever get the girl.

Tough luck dead boys.

This one time this mean looking hood girl walks in. I didn't say hey how's it going just because she had a mug that said don't fucking talk to me. Just for fun I did say have a good night. She didn't say anything but DAMN did she wore the biggest smile.

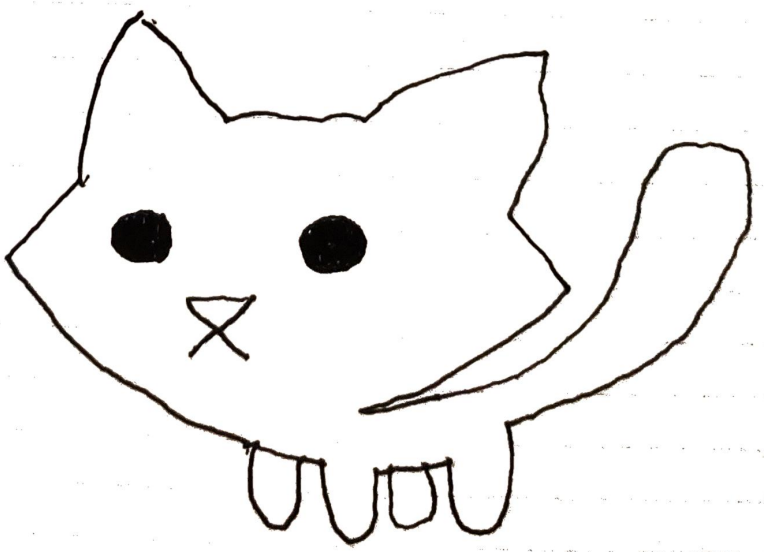
This group came in who had their home's destroyed by hurricane Laura, they didn't even have their mask on. As they were leaving I said "hang in their guys, I didn't think much of it but one of them said "God bless you",

10/6 Nightmare fuel 4

I was dreaming that I was in this massive building. I was just wandering around w/ no direction, there was a fucking sign that said do not enter under this door. As I crossed the ~~thres~~ threshold I was levating & choking to death ~~lol~~ It was like that scene in 8213: Gacy House

It felt so real. As I was about to kick the bucket I woke up. I was taking deep fucking breaths because I really couldn't breath. It was like it was happening in real time.

10/6 Nightmare Fuel



I actually had 2 bad dreams on the same night.

1st dream

I was working at a department store during a christmas sale. I was stocking shelves & doing inventory. Boom Clap by Charli XCX started playing over the loud speakers. That was fucking weird. Shouldn't they be playing christmas music. Anyways I'm about to open the doors. There's like a thousand people waiting to get in. I open that shit & I get trampled to death. I then spawn again in the store the next day like nothing happened, kinda like Pioneer Kenny from South Park. Dude they were trying to get me to open the doors but I said fuck that shit get somebody else. As I turn to walk away Boom Clap starts playing. When it gets to the 1st hook a this heavy ass shelve gives & fucking lands on me. I respawn the next day & all I'm thinking is I had better get the hell out of here.

As I'm getting out of the store Boom Clap starts playing. All I'm wondering is how the hell am I going to get deleted out here? A fucking safe falls from the sky. No matter where I ran that shit was aiming for me. It was like that scene in Muscle Bob BuffPant's. Where the fuck did that come from? Must haven fallen out of an airplane.

I recently saw The Butterfly Effect & that would explain a lot. Also when I 1st bought my 1st smart phone I bought the Boom Clap ring tone like 10 minutes after the purchase. I've been talking a lot of shit about Indians & I've had the ring tone so long that I forgot Charli XCX is half Indian. I'm overwhelmed by the absolute irony. Everybody who hears it instantly starts laughing & I'm not going to change it.
What a weird ass dream.
Must be an omen.

2nd dream

This metal chick was sitting on the balcony of a 2nd floor apartment holding something, she looked like the chick from the ~~Blair~~ Blair Witch project 2. Dude these fucking apartments look just like the ~~ones~~ Belle Meadow apartments on the corner of stone canyon road & meadow road except there was a small brick wall between the sidewalk & the lawn.

Then we make eye contact, It was the way that it happened that freaked me out, she slowly turned her head towards me. There's a row of dolls just like the one the chick was sitting w/ ~~it~~ lined up against the brick wall. The kind w/ sharp teeth & the medieval look, They looked like the dolls from Resident Evil village. With 1 satan looking one at the start of the side walk. And next to the satan doll was an apple ~~or~~ w/ the skin off.

Even ~~though~~ though the situation was pretty scary I'm a sucker for the ambiance, It was night & their was an awesome breeze blowing leaves around. The temperature was perfect, It was like 77 degrees, Not to hot or cold. And I don't remember anything after that, If anything ~~else~~ even happened.

I actually did walk by Belle Meadows at night one time.

10/6 Night Mare Fuel 6

I was dreaming that I was working at the North Park Mall. I was planning on [illegible] the next day. I was working in the food cart thinking about how I'm going to do it. As I was thinking this lady calls me out & sings like a canary. She says that I'm planning on going postal, Busted. I tell that bitch she's crazy but the customer's are looking at me like I'm the type to do it. I get the fuck out of there but fucking mall security is running after me. Do these losers even carry guns.

I then get busted & hauled off to jail.

Random Post

This one time this chicks parent's got towed. I saw them & then I walked around. And I saw them again I remember saying "What the hells going on?" This chick Cher name is Amelia by the way) tells me "My parents car got towed even though they were parked in the visitor parking. That's so fucked up. I then call the towing company. I tell them "Why the hell did you tow home girls parents ride when they were parked in the right fucking spot. This Loser gives me & the run around & fucking hangs up.

I then call HQ & Ha Amelia talks to the operator, so Amelia wants my phone number so she has a witness. I couldn't believe Amelia said "Is this your real phone number, I told Amelia "Why don't you call me & find out. I had my Phone in my shirt pocket. Boom that shit starts ringing. As a joke I answer & say "hello I'm working here." Rice crispies commercial

Me & Amelia part way's. I check the parking spot were her parents parked. I then told Amelia the spot wasn't visitor parking. She said someone parked in the spot her parent's were in. She then drives her parents to the impound.

Like a week later by sheer happenstance I bumped into Amelia. I was like "hey hows it going did you ever get your parent's car out of the impound?" She said "yeah", the apartment complex didn't reimbursed her. I told her "that's so fucked up, I don't know how it came up but we started talking about careers. Amelia said I should get a job at Amazon. I then told Amelia maybe she should get into a university. She said "are you going to pay my bill's?", I remember thinking yeah Amelia let me take care of you," orphan

Amelia also said I should try for the police department, which I eventually did end up doing. There was a pause in the conversation. For like 30 seconds we just stood around not saying anything. I break the silence & tell Amelia your hair is so blonde & pretty. Amelia stares

Smiling & laughing, She the said "Why do you talk so slow?" That's just how I roll homegirl. Amelia had to go so I said "See you around".

10/6

Another Random Post

I was on assignment in Cooks Creek. I saw this Hispanic guy grilling, He ~~nodded~~ nodded at me but I was in my self loathing phase so I didn't say anything. It was almost curfew so I thought to myself IF he's still there When I get back I'll tell him to scram.

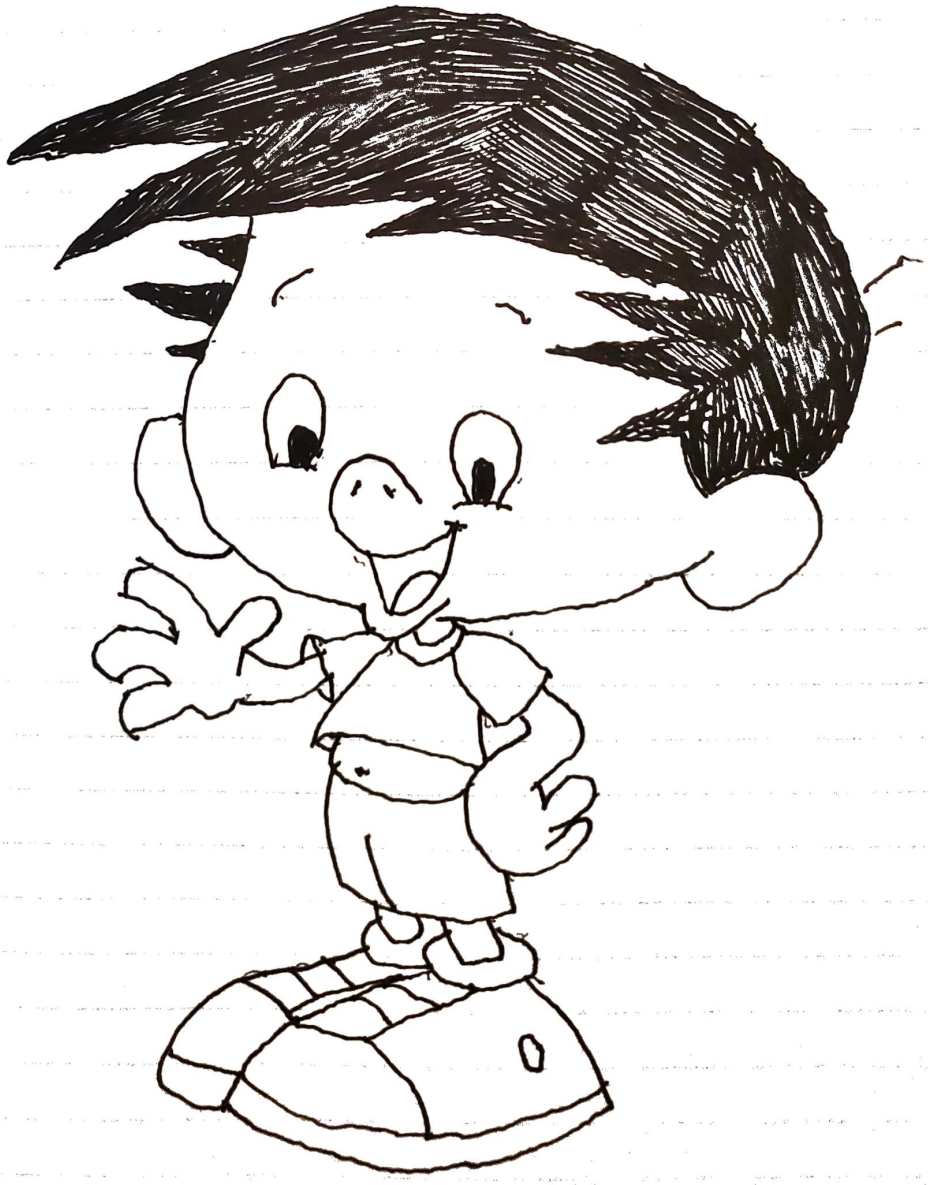
Like 10 minutes later I see this dude again. I smirk to myself. Time to ride the lightning homeboy. I go up to him & say how's it going. To my surprise this dude knew English. He said it's going good or something like that. He then say's killer boots man. And before I knew it we have like a 20 minute conversation. Which was weird because the only reason I wanted to talk to him was so that I could give him a hard time.

I found out he was in the navy. And that gave him the chance to travel all over the world. The highlight was he was a prison guard. As soon as he said that I said "so you had to deal w/ guys in the Nazi Low Rider's the Aryan Brotherhood & the Texas Syndicate. He said "oh yeah the Texas syndicate." He then said "I feel sorry for them". I wish I would have asked him do you feel sorry for them because they're going to be in jail for the rest of their lives or because they can't get their act together.

I don't think he knew that I knew how to speak Spanish. We were speaking English the whole time. This dude tells his wife in spanish fix this young man a plate. It was a plate of ravioli, ribs, & barb q w/ a stack of tortillas & a sprite.

I was going to give this dude a hard time but it ended up being a pleasant experience.

16 Coolidge Effect



On April 2nd 2019 I went Fort Worth to take a test to join the Fort Worth fire department, the test was at the Fort Worth convention center. When I get there I'm like dude. There was like 500 people in there. You get bonus points for staying in Fort Worth & being in the military, that's like 10 questions less I had to miss just to be able to have the same score. The test was like 2 hours. Everyone had to turn their phones off. It was so fucking quiet in there you could hear a pin drop.

After the test I went to Hooters.

Like a month or 2 later they posted the results. I'd give my score a B+. This crazy motherfucker actually got a perfect score. The test was in April & around November the fire department e mails me saying I made it to the next round. Which blew my mind since ~~they're~~ they're were a ton of people who scored better than me, so I go to the Fort Worth Fire Department Training Academy. Dude like 300 people took this fucking test but when I get there their's like only 30 people there. I guess they didn't have the patience, I don't blame them either. I was due for orientation in like 1 week to be a UPS driver. So I had a choice, I went w/ UPS driver. I ended up quitting UPS & after seeing the competition I knew I didn't stand a chance.

It'd be like someone who's never been to a gym & out of shape signing up for the Ironman Triathlon. Why do I use that example because I've heard of crazy motherfucker's that have done that. I don't stand a chance. You have to have good credit, Applicants must successfully pass a written test, a physical assessment test, a background check, a polygraph examination, an interview & a medical / physical examination, High school diploma, G.E.D. certificate or 12 semester hours of college. Must live within 30 minutes of designated report-in station; must be accomplished within six (6) months of employment. And a heck of an admissions essay.

I copy & and pasted my resume,

One of requirment's was a 1.5 mile run that must completed in 13 minutes 57 seconds. Sometimes I was able to make it sometimes not.

I'd like to thank my Hooters girl Peyton. Homegirl where ever you are right now I just want to say thank you for making my day. That fucking test was stressing me out. Later that day I touched myself while thinking about Peyton. This is meant to be said the way Kevin Bacon tells Maggie in Stir of ~~Echoes~~ Echoes. I love You Peyton.

Even now I'm still getting messages to join the ~~fire~~ fire department. One of them was from Austin for God's sake.

My Problem is I talk the way that I write. I remember being at Ben E Keith's & writing an incident report, the boss told me Write what happened & I said "I hit my ~~head~~ fucking hit my head on the Mid rider. That shit hurt like a motherfucker." They told me to watch my language. I'm not changing the way I talk or write even IF it means not getting a 25 dollar an hour job.

I can't believe Bobby Picked up a Hooters girl. What a lady killer man.

Nightmare Fuel 7

I ~~dreamed~~ dreamed that I was in school chilling in the courtyard, then a fucking riot started. I don't even know why everybody was losing their shit for. Everybody was running. When I got to an empty field I saw this girl changed her cell phone battery. As soon as she did that everybody just stopped & sat down cross legged.

What the fuck.

Also I had Corona vision where I looked like I was looking throug a bottle of corona the whole time.

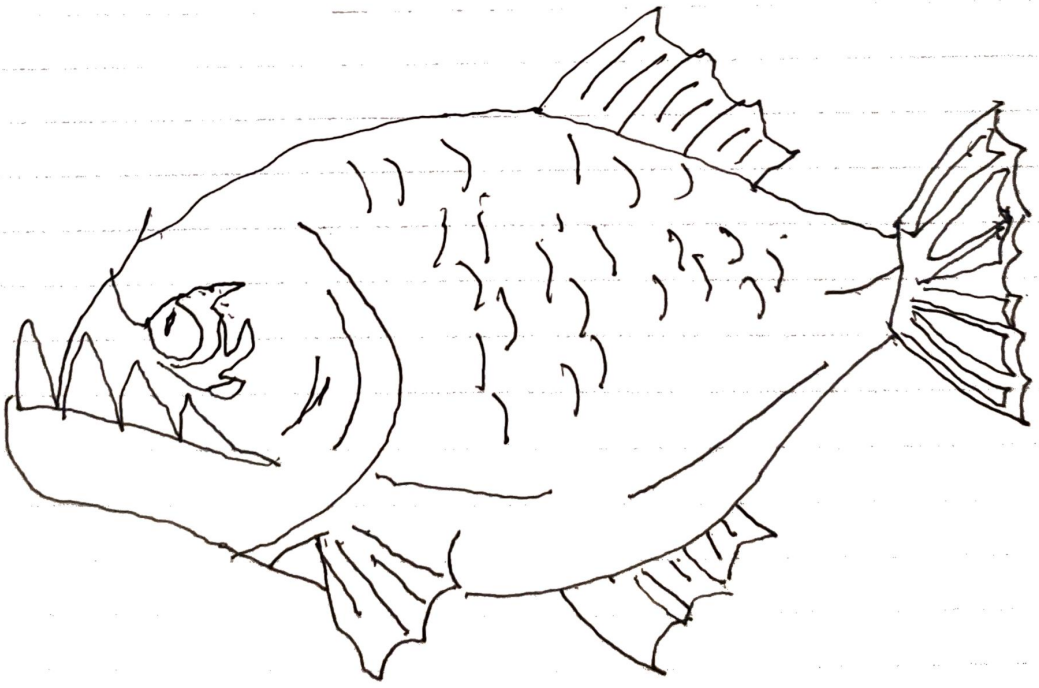
Nightmare Fuel



I had this crazy fucking dream. I was running across a bridge in the middle of a Lake. Kind of like the scene in the good Son except the lake was a lot bigger & the bridge was ~~also~~ ultra modern. It reminds me of driving to ~~Rockwall~~ Rockwall. Halfway through I fall through a fucking hole. Kinda like that scene in Navy Seals when Curran falls halfway through but not all the way. Anyway's this fucking Pack of Piranhas is fucking making it's way towards me. You could see these loser's silhouette in the water.

I get up but one of these son of a bitches takes a chunk out of one of my fucking legs. I then start running across the bridge & these ~~fucking~~ fucking loser's are trying to kill me. It was like that level in Super Mario World 2 Stage 3. I make it across the bridge & these motherfucker's can't get to me anymore. Even though there's not any chance in hell these loser's can delete me. They're mad dogging me from the fucking water. That's all these loser's can do. I turn to walk away. How long are these loser's going to stand their watching? Who the fuck ~~ca~~ cares I'm out of here. Piranhas. Fucking under water Pit bulls
